# 80L

**80L**  
Capacity

Zinc Steel with Epoxy Polyester  
Coating

Galvanised Inner Liner

### TECHNICAL SPECIFICATIONS

## APEX OUTDOOR LITTER BIN

# 80L

### FEATURES

- Manufactured from zinc coated steel, it is coated with epoxy-polyester for added resistance against diverse weather conditions, and designed to complement all rural and urban environments.
- A popular choice for public parks, city centres, and open-air shopping malls, the Apex Outdoor Litter Bin includes a galvanised inner liner to simplify emptying and cleaning, a heavy-duty hinged door with a tri-insert locking mechanism to prevent unauthorised access, and two generous apertures to encourage waste disposal in all public areas.

### Specifications

- Manufactured from Zinc Steel with Epoxy Polyester Coating.
- Galvanised Inner Liner.
- Two Large Apertures.
- Heavy Duty Access Door with Tri-Insert Locking Mechanism.
