TECHNICAL SPECIFICATIONS

TRIPLE EXTERNAL RECYCLING UNIT

336L

FEATURES

- Manufactured from tough epoxy coated steel for improved weather resistance, it is equipped with three 112 litre steel liners to aid emptying and cleaning, and it comes with stylish gold banding as standard.
- A robust and solid structure that can be secured to the floor with the optional purchase of ground fixing bolts, this Triple Recycling Bin is currently offered in five attractive colour options, and a choice of recycling apertures for items such as plastic bottles, paper and glass.

SPECIFICATIONS

- Wide range of changes can be made to the original design.
- Galvanised steel base 8mm, and side walls 2mm.
- 336-litre capacity (3 x 112-litre compartments).
- Gold banding supplied as standard.
